Comments: I just wanted to thank GOD and TBN for the ability to use the internet to spread the gospel. I do not have cable or satellite TV; but I do have internet access at work. I can't tell you how wonderful it is to be able to still watch TBN and be feed the Word the entire time I am here. It helps me to stay focused and it never fails that the Spirit of God deals with me in an area as the different programs come on. Thank you TBN and my family and I will remember to sow from where we have been fed.
