Glorious news! Breathtaking new technology is becoming TBN’s best friend! For 15 years we have had to plead, beg, and PAY to gain cable TV access — except for systems in areas where TBN owns a full power station. Thank God for the Supreme Court that upheld “must-carry” in 1997. With 33 big, full power stations we have 49,434,361 households on the air free! But with 48,522,000 cable homes it has been knock down, drag out, and pay incentives to get on the non-“must-carry” cable systems. Many cable systems simply don’t want any religion, so they tell us to get lost! BUT NOW — praise God, with the digital age upon us it seems nearly all the communications companies such as AT&T, Verizon, the Baby Bells, and others are getting in on the act of delivering TV to your home, plus telephone, and quality Internet connection. But HERE’S THE AWESOME NEWS:

Through a new technology called “SWITCHED DIGITAL” they are coming to us and requesting to put all five of our networks on their digital systems — ready for this one? — FREE! Yes, I said FREE! The Bell systems, and many still have Bell Telephone, are gearing up to offer you not just telephone, but all the TV your heart could desire, high speed Internet connection, and others are getting in on the act of delivering TV companies such as AT&T, Verizon, the Baby Bells, and many still have Bell Telephone, are gearing up to offer you not just telephone, but all the TV your heart could desire, high speed Internet connection, and others are getting in on the act of delivering TV

I managed to watch TBN, as I was watching something interesting happened, I saw a pastor called Benji Hinn preaching, performing miracles of healing, saying miracles are coming to America. So I listened to him in prayer and I focused my mind, and I walked. I did this for a long time before I fell asleep and after some time I woke up, I just fell into my home.
