May 2016

Our dedicated "Praise the Lord" hosts interviewed some exciting guests this month!

Pastor Terry Bates with OKC Faith Church always does a great job hosting for us. The interview with **Pastor Rick Thompson**, Senior Pastor of Council

Road Baptist Church, was very interesting as he talked about the Cube at his church. The Cube has after-school programs, mentoring programs as well as all types of sports activities. These programs are open to everyone. The church has become more mission minded and they believe that we need to act and not just speak, but show everyone is our neighbor and we can help those in different areas of need. **Pastor Bates** and **Pastor Thompson** visited about churches being more involved with one another.

Pastor Rodney Payne, with **Bethlehem Star Baptist Church**, was a guest of **Pastor Terry Bates**. They visited also about the need for all churches to begin to work together more and let the community see the togetherness.

One of our favorite and dedicated singers, **Melissa Kennedy**, blessed us with her anointed voice and music she had written.

David Edwards discusses with **Pastor John Youell** from The Crown Center Church about the power of prayer.

Pastor Youell is involved with the Reinhard Bonnke Prayer group here in Oklahoma City and the state. **Reinhard Bonnke** will be in Oklahoma City August 20,21 at the Cox Convention Center.

David Edwards also visited with **Jackson Lahmeyer**, who is the Oklahoma Crusade Director for the **Reinhard Bonnke Crusade**.

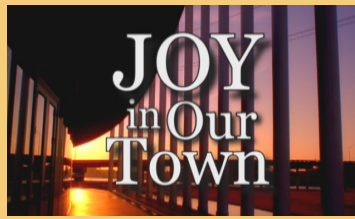

REMEMBER THE REINHARD BONNKE GOSPEL CRUSADE—AUGUST 20,21, 2016—AT OKC

COMMUNITY OUTREACH PROJECT

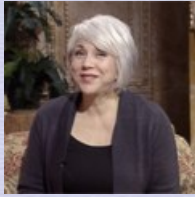

The Hope Center in Edmond told me they had a real need for diapers to give to the needy. KTBO provided ten large boxes of which they were so appreciative.

"IT IS MORE BLESSED TO GIVE THAN RECEIVE"

Joy in Our Town interviewed some very interesting professionals from around OKC!

KTBO's *Joy in Our Town* hostess, **Dolly Velasquez**, has such a good report with our guests. We appreciate her so much and the extra research of each guest that she does on her own.

Thank you Dolly for the volunteer work you do as our hostess for our public affairs program .

Master Sgt. Gary Knight, with the Oklahoma City Police Department, discussed with hostess **Dolly Velasquez** the problem of human trafficking in Oklahoma City. He told us there are two types of human trafficking: labor trafficking which takes place more in other parts of the world and sex trafficking that is mainly what is in the United States and Oklahoma.

Ann Felton, CEO of central Oklahoma Habitat and *Joy in Our Town* hostess **Dolly Velasquez** visited about the habitat inmate program. The inmate program allows eight to ten inmates with non-

violent crimes to help with the projects of assisting in building homes for low income families. It gives the inmates a chance to see that people care and teaches them a skill before their release.

Donna Edwards, Executive Director of Living Well and host **Dolly Velasquez**, visited about the family and marriage—from war to peace and the difference between arguing and disagreement. The subject was also discussed in relation to the family and children too. One main contributor to raising the intensity of arguing and disagreeing is the tone of voice. Watch the tone of voice, listen and if needed take a time out and come back at a set time. **Donna Edwards** and her husband do marriage counseling and group meetings.

Dr. Dale Peterson, wellness physician, and hostess **Dolly Velasquez**, discussed structural issues in our bodies. There are different components that our bodies; organs, biochemical and structural are just a few. Often we treat structural issues biochemically rather than structurally. Some structural issues relate to three areas; hip misalignment, when it becomes slightly misaligned, the skull can slip slightly on the spine and our ribs can twist and lock up. One thing to remember is symptoms are warning lights and should be addressed not just medicated.

PRAISE REPORT

A lady from Cushing wrote in to let us know she has been watching TBN for years and how happy it makes her just hearing the Word. She is in a nursing home now and able to spend four or five hours praising God each day—saying she never knew what it was to really know Jesus so personally. She calls herself the Lord's secret agent woman and there in the nursing home to rope people in and talk about Jesus. PTL for her witness continuing as she grows older.

VACATION TIME

It is time for summer vacations so why not visit Orlando and go to **The Holy Land Experience**. This is a theme park for all the family and also a great place to take a group from your church. You will be blessed seeing the special programs they have.

MY STORY

Do you have a story of what TBN has done for you? Contact KTBO in Oklahoma City or your local TBN station where you live. Let us hear your testimony of what God through TBN has done in your life.
