IN THIS ISSUE

Church Partners with TBN on Facebook

TBN Montgomery is seeing a steady rise in Facebook “likes.” Impact Church in Montgomery placed a direct link from their website to the TBN Montgomery Facebook page. This direct link has caused an increase in interest and viewers of our social media outreach. It is hopeful that other churches will link WMCF to their websites by the month of November to continue the flow of new viewers and to help spread the Gospel message around the world.

Free Ultrasounds, a way to Preach the Gospel

Joy in Our Town Host Felicia Taylor interviewed Maria Kometer of Life on Wheels to talk about a mobile unit that goes into impoverished areas to assist pregnant women. Kometer said

that there are many good pregnancy centers in the Montgomery area but most of the women who really need them cannot afford them. Impoverished pregnant women usually will not have the transportation, money and resources to know about them. “So Life on Wheels packs up the ultrasound in a mobile clinic and takes it right to them” she said. Dr. Matt Phillips, an OGBYN in Montgomery, came up with the idea after praying about how to help these poor women. He

partnered with pregnancy centers and learned about Image Clear Ultrasound Mobile. Across the country, the unit is considered safe, effective and a wise choice. The Life on Wheels concept is taken from the biblical model of Jesus Christ who, went to find those who were lost rather than wait for them to come to Him. This unit seeks out the needy and comes to the rescue. Kometer is passionate about the fact that this ministry uses modern technology to reach the hurting and the lost. The ultrasounds and pregnancy tests are brought to the women so that they can have the assurance of a safe and healthy exam with the opportunity to be introduced to the Lord Jesus Christ.
